To Whom It May Concern:

I am very pleased to recommend Mike Keshishian and Professional Mechanical Contractors, Inc. for employment. I have worked with PMCI on a number of projects in Los Angeles County since 2005. In that time, the company and its crew did an excellent job and were always viewed as an asset to our projects. Throughout each job, they were professional, proficient and always ensured that their work was completed in a timely manner and with strict quality control.

The company effectively schedules and manages several crews to maintain efficient operations on the jobsite. In addition, Mike and the office team continuously work hard to maintain active communication with the project management team.

PMCI continues to demonstrate that they are reliable and responsible throughout all phases of the project and I would not hesitate to use them on future projects.

Respectfully,
