

5/15/2008

To whom it may concern:

This recommendation letter is written with the utmost confidence. Mike Keshishian and Professional Mechanic Contractors, Inc. are the best candidates for employment. I have contracted work with PMCI on a number of projects in Los Angeles County, Santa Monica, and the city of Beverly Hills since 2003. In that time, the company and its crew has done an excellent job of displaying professionalism, proficiency, and organization. Without failure, their work is completed in a timely manner and executed with strict quality control. PMCI continues to be an asset to my development company.

In addition, Mike and the office team at PMCI continuously work hard to maintain active communication with the project management team. They have developed a reputation that demonstrates responsibility, concern, and trust. I continue to work with PMCI and will not hesitate to use them on future projects.

Respectfully,

Michael Novik  
Trans-State Construction Inc.  
Developer / Investor
